

# Our Services

Clinical Diagnostic Laboratories is an SBA certified 8(a) woman-owned small business providing technology solutions and medical laboratory services in the government and commercial markets. We specialize in a wide array of medical testing and utilize cutting-edge technology to provide high-standard services for our patients and colleagues.

This is done while also providing a high degree of accessibility for lab results, fast turnaround times, highly competitive rates, and immensely accurate results. Our on-call Director with a Ph.D. in Pathology, brings decades of experience in overseeing laboratory operations. Additionally, our Full-time Technologist possesses over ten years of hands-on experience in the Medical Lab field, ensuring meticulous execution of tests. Our laboratory is also proud to hold CLIA and COLA certifications, which signify our compliance with rigorous quality standards, ensuring reliable and accurate results.

# Differentiators
